TABLE OF CONTENTS

Preface	I
About This Report	II
Acknowledgements	III
DRG Profile	
DRG 391 Normal newborn.....	1
DRG 373 Vaginal delivery w/o complicating diagnoses.....	2
DRG 430 Psychoses.....	3
DRG 390 Neonate with other significant problems.....	4
DRG 371 Cesarean section without complications, comorbidities.....	5
DRG 209 Major joint & limb reattachment procedures.....	6
DRG 372 Vaginal delivery with complicating diagnoses.....	7
DRG 359 Uterine & adnexa procedure for non-malignancy without complications, comorbidities.....	8
DRG 89 Simple pneumonia & pleurisy age >17 with complications, comorbidities.....	9
DRG 116 Perm cardiac pacemaker implant w/o AMI, heart failure or shock.....	10
DRG 389 Full term neonate with major problems.....	11
DRG 127 Heart failure & shock.....	12
DRG 14 Specific cerebrovascular disorders except transient ischemic attack.....	13
DRG 98 Bronchitis & asthma age 0-17.....	14
DRG 143 Chest pain.....	15
DRG 174 Gastrointestinal hemorrhage w cc.....	16
DRG 374 Vaginal delivery with sterilization &/or dilation & curettage.....	17
DRG 500 Back and Neck Procs w/o cc.....	18
DRG 462 Rehabilitation.....	19
DRG 91 Simple pneumonia & pleurisy age 0-17.....	20
DRG 370 Cesarean section with complications, comorbidities.....	21
DRG 182 Esophagitis, gastroenteritis, & misc digestive disorders age >17 w/c & c.....	22
DRG 167 Appendectomy without complicated principal diagnosis without c & c.....	23
DRG 148 Major small & large bowel procedures with complications, comorbidities.....	24
DRG 358 Uterine & adnexa procedure for non-malignancy with complications, comorbidities.....	25
DRG 498 Spinal fusion w/o cc.....	26
DRG 388 Prematurity without major problems.....	27
DRG 435 Alcohol/drug abuse or dependence, detox or other treatment without c & c.....	28
DRG 124 Circulatory disorders except AMI, w/ cardiac catheter & complex diagnoses.....	29
DRG 88 Chronic obstructive pulmonary disease.....	30
DRG 296 Nutritional & miscellaneous metabolic disorders age >17 with c & c.....	31
DRG 383 Other antepartum diagnoses with medical complications.....	32
DRG 138 Cardiac arrhythmia & conduction disorders with complications, comorbidities.....	33
DRG 416 Septicemia age >17.....	34
DRG 183 Esophagitis, gastroenteritis, & misc digestive disorders age >17 w/o c & c.....	35

TABLE OF CONTENTS

DRG 79	Respiratory infections & inflammations age >17 with complications,comorbidities.....	36
DRG 219	Lower extremity & humerus procedures except hip, foot, femur age >17 w/o c & c.....	37
DRG 386	Extreme immaturity or respiratory distress syndrome, neonate.....	38
DRG 387	Prematurity with major problems.....	39
DRG 125	Circulatory disorders except AMI, w/ cardiac catheter w/o complex diagnoses.....	40
DRG 112	Percutaneous cardiovascular procedures.....	41
DRG 410	Chemotherapy without acute leukemia as secondary diagnosis.....	42
DRG 243	Medical back problems.....	43
DRG 210	Hip & femur procedures except major joint age >17 with complications, comorbidities.....	44
DRG 494	Laparoscopic cholecystectomy w/o CDE without complications, comorbidities.....	45
DRG 320	Kidney & urinary tract infections age >17 with complications, comorbidities.....	46
DRG 298	Nutritional & miscellaneous metabolic disorders age >17	47
DRG 130	Periphreal vascular disorder w/cc.....	48
DRG 107	Coronary bypass w/o cardiac catheter.....	49
DRG 1	Craniotomy are > 17 except for trauma.....	50

Appendix - A: MDC Description

Appendix - B: Patient, Payers, and Hospital Groupings

Appendix - C: Hospital Profile

PREFACE

This report provides a summary and profile of inpatient hospital use in Utah. These nationally standardized categories (Diagnosis Related Groups or DRGs) selected for this profile were those with the highest patient volume in 1998. DRGs reflect the types of patients hospitals treat and the use of services these patients received. DRGs were developed for reimbursement purposes and have limitations, but they are a useful means of generally grouping and analyzing hospital utilization.

Hospital use varies by hospital, payer, and patient demographics, influenced by patient, clinical, economic, and societal factors. Reducing variance caused by system inefficiencies starts with measurement and surveillance of statewide health care use patterns. Such information is useful to those crafting reimbursement, delivery, and program policies of public and private sector health organizations.

The report is derived from the 1998 hospital discharge data base from patient records reported quarterly to the Office of Health Data Analysis by Utah's licensed hospitals. The hospital data base is an important population-based source of morbidity (illness) information and comparative hospital statistics in Utah. This report and other data products, including interactive data bases, are available on the Internet at www.healthdata.state.ut.us.

The Utah hospital discharge data base is the only source of all-payer inpatient data. The data base supports a diverse range of uses, including standard reports such as this one.

ABOUT THIS REPORT

This report, calculated from the 1998 data, is designed to be a tool for analysis of health care issues. It provides the number of discharges of selected DRGs by demographic and geographic characteristics of patients, payers, and providers. The objective of this report is based upon the fact that health care reform policies rely heavily on the use of independent, comparable information to drive decision-making by all parties. The top 50 DRGs presented in this report were selected based on the volume of discharges in 1998.

Diagnosis Related Group (DRG) Profile

The DRGs were developed for the Health Care Financing Administration as a patient classification scheme which provides a means of relating the types of patients a hospital treats (i.e., its case mix) to the costs incurred by the hospital. Each discharge in the Hospital Discharge Database was assigned into a DRG based on the principal diagnosis, secondary diagnoses, surgical procedures, age, sex, and discharge status of the patient. The tables presented in this report display the information of the top 50 DRGs which cover the majority of all discharges occurred in the state of Utah in 1998.

DRG Grouping

The top 50 DRGs included in this report are further assorted into the Major Diagnosis Categories (MDC). The MDC grouping is defined by the body's major organ system as well as some demographic characteristics and clinical data. The list of MDC descriptions can be found in Appendix A of this report.

Analyzing Variables

Each DRG profile displays the volume, costs, and length of stay by patient-, payer-, hospital-related categories. These categories include patient age groups, patient gender, local health district by the patient's residence, ICD-9 diagnosis and procedure codes, hospital ownership, hospital affiliation, capacity (the number of beds in service) and location of hospitals, and major health care payers. Further explanations for these groupings are presented in Appendix B of this report. Information on each hospital's ownership, affiliation, bed size, and location is provided in Appendix C.

ACKNOWLEDGMENTS

This report was prepared by the Office of Health Care Statistics under the direction of the Utah Health Data Committee.

MAJOR DIAGNOSTIC CATEGORIES

MDC	DESCRIPTIONS
1	Nervous System
2	Eye
3	Ear, Nose, Mouth & Throat
4	Respiratory System
5	Circulatory System
6	Digestive System
7	Hepatobiliary System and Pancreas
8	Musculoskeletal System & Connective Tissue
9	Skin, Subcutaneous Tissue & Breast
10	Endocrine, Nutritional & Metabolic System
11	Kidney & Urinary Tract
12	Male Reproductive System
13	Female Reproductive System
14	Pregnancy, Childbirth & the Puerperium
15	Newborn & Other Neonates (Perinatal Period)
16	Blood and Blood-forming Disorders
17	Myeloproliferative DDs (Diff Neoplasms)
18	Infectious and Parasitic DDS
19	Mental Diseases and Disorders
20	Alcohol/Drug Use or Induced Mental Disorders
21	Injuries, Poisoning and Toxic Effect of Drugs
22	Burn
23	Factor Influencing Health Status
24	Multiple significant trauma
25	Human Immunodeficiency Virus Infection

PATIENTS, PAYERS, AND HOSPITALS GROUPINGS

AGE GROUP:

0-17, 18-34, 35-44, 45-54, 55-64, 65+. Some DRGs are applicable only to certain age groups (e.g., DRG 91: simple pneumonia & pleurisy age 0-17). Age groups that are not applicable to the reported DRG are intentionally left as missing values (.).

SEX:

Male and Female. This patient-related category is not applicable to some DRGs, such as maternity services and reproductive system-related diagnosis and procedures.

LOCAL HEALTH DISTRICT:

There are twelve local health districts in the state of Utah providing public health services to the residents in their geographic area. Those public services cover environmental health services, child health services, and adult health services. The boundary of each local health district department is shown in the state map below (the map is taken from the Utah local health department's Internet site). The Aother@category represents patients from outside Utah and patients who did not provide their residential information.

ICD-9 DIAGNOSIS:

Refer to AInternational Classification of Disease (9th Revision): Clinical Modification@for description.

ICD-9 PROCEDURE:

Refer to AInternational Classification of Disease (9th Revision): Clinical Modification@for description.

LENGTH OF STAY:

Total days stayed in the hospital from the date of admission to the date discharged. If patient was admitted and discharged in the same day, one-day of stay was assigned to the record.

TOTAL CHARGE:

Total dollars amount charged for the discharge (rounded to the nearest dollar).

OWNERSHIP:

Government-owned, Not-for-profit, and Investor-owned. A list of hospital profile by ownership, affiliation, and location is provided in the Appendix -C: Hospital Profile.

AFFILIATION:

Intermountain Health Care, Columbia/HCA, Paracelsus, University of Utah, and Others.

APPENDIX B cont'd

BED SIZE:

Less than 25, 25-49, 50-99, 100+ (based on the number of beds in service reported by each hospital).

LOCATION:

Urban area includes hospitals located in Weber, Davis, Salt Lake, and Utah counties.

Rural area includes hospitals located in the state of Utah but outside the urban counties stated above, including: Box Elder, Cache, Rich, Morgan, Summit, Tooele, Wasatch, Daggett, Duchesne, Uintah, Juab, Millard, Sanpete, Piute, Wayne, Carbon, Emery, Grand, San Juan, Beaver, Garfield, Iron, Kane, and Washington counties.

PAYERS:

Medicare, Medicaid, Other government, Blue Cross/Blue Shield, Other commercial, Managed care, and Others, including self-pay.

APPENDIX C
